

41 TWENTY
LIMITED

WHERE YOUR VISION
MEETS EXCELLENCE.

ABOUT 41 TWENTY

41 Twenty is the central company of Euro Alba Holding, serving as the governing and operational backbone of all businesses within the group.

It oversees bureaucratic, legal, financial and strategic functions, ensuring that each company operates efficiently and in full compliance.

This centralized structure allows all subsidiaries to focus entirely on their core activities.

VALUE PROPOSITION & VISION

What sets 41twenty apart is our unwavering commitment to partnership. We don't simply consult or advise — we become fully immersed in the development journey of each client, acting as a true extension of their team. Our value lies in our ability to think long-term, move fast, and operate with clarity in complex environments. Whether launching a new venture or transforming an existing one, we ensure that every action drives measurable, meaningful growth.

WHY CHOOSE 41 TWENTY AS YOUR STRATEGIC PARTNER

A one-stop solution for complex administrative and strategic needs.

- Proven expertise in both the UAE and Italian markets.
- Solid institutional and governmental relationships.
- Scalable and replicable business model for internationalization.

OUR PHILOSOPHY

We believe that successful business development is the product of strategic insight, bold action, and adaptive thinking. Our work begins with a deep understanding of each project's unique challenges and potential, followed by the design of solutions that align brand purpose with market opportunity. Rather than offering templated approaches, we tailor our strategies to ensure maximum impact and sustainable results. For us, growth isn't just about numbers — it's about building structures that endure, evolve, and lead.

SERVICES & CAPABILITIES

At 41twenty we develop custom growth strategies, digital ecosystems, and operational models for companies ready to evolve. Our services span from venture incubation to strategic scaling, including brand positioning, go-to-market strategy, business model innovation, and infrastructure development. Each solution is crafted to empower companies to compete in fast-paced markets and scale sustainably.
